

# Finance a New Natural Gas Heating System and Keep Money in your Pocket Every Month

**YankeeGas**<sup>®</sup>

A Northeast Utilities Company

Financing a new natural gas furnace or boiler is easy — and your heating-related monthly payments could go down while you pay off your new, efficient equipment. Two financing options offer you the convenience of being billed on your monthly electric bill *(for CL&P and UI customers)*:

- **The Energize CT Heating Loan** offers 2.99% Annual Percentage Rate (APR) financing. Up to 90% of the heating system equipment and installation costs may be financed, depending on projected energy savings — the greater the energy savings, the lower the down payment.
- **The Connecticut Housing Investment Fund** offers loans as low as 0% APR with no down payment required. Applicants must participate in the Home Energy Solutions<sup>SM</sup> program or the Home Performance with ENERGY STAR<sup>®</sup> program.

*Call 1-877-WISE-USE (1-877-947-3873) for complete details and eligibility guidelines.*

There are several other financing programs available. Learn about all of your options at: [www.yankeegas.com/howtoswitch](http://www.yankeegas.com/howtoswitch) See "Financing"

For more information, call one of our trusted Energy Advisors: **1-855-OIL2GAS** (1-855-645-2427). Press "1" and ask for extension 808.
