*\* Note: "Standby Firm Commodity PGA for February 1999 reflects the adjustment to Summer and Winter Firm Base Commodity rates. For the prior month, tariff base rates of \$.1702 for Summer and \$.2344 for Winter are included in the PGA factors. The previous months calculations represented the total charge. For example January 1999 PGA rates were \$.1894, which represented \$.1702 base rate + \$.0192 debit adjustment for Summer, and \$.2106, which represented \$.2344 base rate + \$.0238 credit adjustment for Winter."*
